

Dandelion Magic!

Grab some dandelions and let's explore the stems!

You will need: dandelions, water, a bowl

Here's what to do:

1. Take the blossom off of the dandelion. You can put these in the water to see if there is any change!
2. With the remaining stem, peel the stem into long strips.
3. Talk about what might happen when you put the stems in water.
4. Place the peeled stems in water to watch what happens.
5. Ask wonder questions!
6. Record your observations!
